# KGS Flexis® Diamond Whetstone

GOLD LINE - Wet / Dry use

## PRECISION HAND SHARPENING

The KGS Flexis® Whetstone is a precision diamond sharpening tool. The diamond sharpening tool is constructed on a precision aluminum base plate, with rubber feet to provide stable support during sharpening. This precision diamond tool is well suited for sharpening or deburring any hard, brittle materials.

## WORKABLE MATERIALS

Sharpening chisels, drills and cutting tools, especially those made of Tungsten Carbide
